

Cookie and Local Storage Policy

Version 1 — effective 5 October 2026

1. What we use

The website neural-bet.com uses your browser's local storage (localStorage) to remember your display preferences (language, theme, interface state). This data stays on your device and is not transmitted to us.

2. Analytics and advertising

If an advertising measurement pixel (for example Meta Pixel) is active on the website, it is only triggered after your consent through the dedicated banner. It measures the effectiveness of our campaigns and may transmit technical data to its publisher (page visited, device, advertising identifier). You can withdraw your consent at any time from the banner or your browser settings.

3. Telegram mini-application

The mini-application runs inside Telegram and does not use third-party cookies. It keeps a session token for the duration of your use.

4. Your choices

You can clear local storage and cookies from your browser settings. Refusing measurement tools does not affect the operation of the Service.

5. Contact

For any question: Support Telegram : @neuralbetsupport (<https://t.me/neuralbetsupport>).
